

Student Name \_\_\_\_\_

**Third Grade**

Dear Parents,

We are very proud of the academic growth our students have made this school year and the work they have done. The “summer slide” or summer learning loss is a real issue that schools worry about. We want our students to enjoy their summer while at the same time continuing to hold on to the progress they made during the school year.

Attached is a packet of practice skill pages & a book list. Students **must read 1 chapter book from the list** and complete the book response pages. Once they complete the book, they are to **take the AR test for their chapter book**. Students must also get **6 green lights in Reflex Math** for the summer. There is also a suggested pacing for the work given. Though the pacing is not required, spaced practice is much more beneficial to students than cramming all the work into the last week or so of summer. Continued reading and math practice strengthens students’ fluency and comprehension.

Reading over the summer is one of the most important activities you can do with your child. It is important that students read books and take AR (Accelerated Reader) tests on their level and not choose books that are too easy or way too hard. Below are the recommended book levels for your child. You can look up the level of a book on [arbookfind.com](http://arbookfind.com).

**AR website:** <https://global-zone51.renaissance-go.com/welcomeportal/211290> (\*See the QR Code on the next page)

Recommended Book Levels: \_\_\_\_\_

**\*\* Students are required to complete their summer work packet, read their chosen chapter book, take the AR test on their chapter book, & get 6 Reflex Math green lights. These assignments are due by Friday, August 16<sup>th</sup> and will count as the student’s first reading and math grades.**

Below is also a challenge section. If students go above and beyond the required work, they will receive a reward for their efforts.

**Summer Challenge:** *(Optional)*

Complete all of these additional “above and beyond” activities to receive a prize when we get back to school.

### **Choose 1!**

- **Nancy Drew Clue: Sleepover Sleuths – Level 3.1**
- **Calendar Mysteries: January Jokes – Level 2.9**
- **A-Z Mysteries: Absent Author – Level 3.4**
- **Encyclopedia Brown: Soccer Scheme – Level 4.2**
- **Ballpark Mysteries: The Fenway Foul-up – Level 3.9**

**AR Login QR Code**

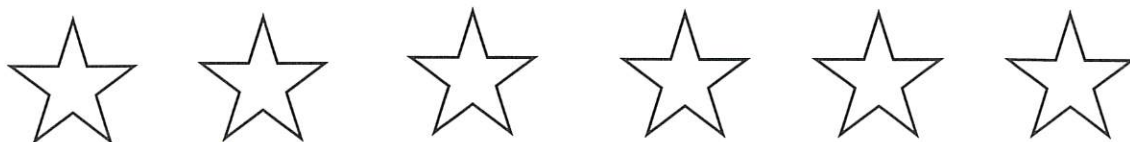

## Third Grade Summer Work Suggested Pacing

- € **June 3 – 7:** Read chapter book and complete Math page 1 & 2.
- € **June 10 – 14:** Read chapter book, ReadWorks passage & questions (Birds: Animals with Feathers), & Math page 3.
- € **June 17 – 21:** Read chapter book, Complete chapter book packet page 1 for a given chapter, & Math page 4.
- € **June 24 – 28:** Read chapter book, Complete chapter book packet page 2 for a given chapter, & Math page 5 & 6.
- € **July 8 – 12:** Read chapter book, Complete chapter book packet page 3 for a given chapter, & Math page 7.
- € **July 15 – 19:** Read chapter book and complete Math page 8 & 9.
- € **July 22 – 26:** Finish chapter book, Complete chapter book packet page 4 for the book, Take AR test for chapter book, & Math page 10.

\*\*\*Students must get 6 green lights in Reflex Math over the summer. Color in a star each time a student gets a green light. (Website: <https://www.reflexmath.com/>)

\*\*\*Students must take the AR test for their chapter book once they finish reading it. Color in the smiley face once they take the test.

# Birds: Animals with Feathers

by Jill Lauren, Nancy Chapel Eberhardt

Image by Jill Wellington from Pixabay.

*A bird sits on a branch.*

Birds are animals with feathers and wings. All birds have a backbone. It is also called a spine. Birds have many hollow bones. Hollow bones have empty space inside. They make a bird's body lighter. That helps birds to fly.

All birds have wings and legs. Most birds use their wings to fly. A few birds, like penguins, cannot fly. They use their legs to walk, run, or hop.

Birds lay eggs in their nests. The egg shells are hard. Birds keep the eggs warm. How? They sit on them until the eggs hatch! Then the mother bird takes care of its baby birds or chicks.

Image by PollyDot from Pixabay.

*Penguins are a kind of bird that can't fly.*

Birds can survive in all kinds of habitats. You can find them in hot places like deserts and in the coldest places on Earth like the Arctic.

Birds are also known for their songs. Songs are one way that birds communicate. Birds sing to find a mate. Their songs also let other birds know that a certain place belongs to them.

Many people love birds and enjoy looking for them in trees. But when humans cut down too many trees, birds lose their homes. Protecting trees is important so that we can protect birds' habitats.

Name: \_\_\_\_\_ Date: \_\_\_\_\_

1. What body parts do all birds have?

- A. wings and fins
- B. scales and legs
- C. wings and a spine
- D. hair and legs

2. What is the effect of birds having hollow bones?

- A. Their bodies are heavier so they are stronger.
- B. Their bodies are lighter so they can fly more easily.
- C. Their bodies are more beautiful so they can attract mates.
- D. Their bodies are heavier so they can run faster.

3. Birds live all over the world.

What evidence from the passage supports this idea?

- A. "You can find them in hot places like deserts and in the coldest places on Earth like the Arctic."
- B. "All birds have wings and legs. Most birds use their wings to fly."
- C. "They sit on them until the eggs hatch! Then the mother bird takes care of its baby birds or chicks."
- D. "Protecting trees is important so that we can protect birds' habitats."

4. The author says that humans must protect birds' homes. Where do birds make their homes?

- A. in oceans
- B. in swimming pools
- C. in trees
- D. in ponds

5. What is the main idea of this passage?

- A. Birds have wings and legs so they can fly and run.
- B. Birds are animals that can fly, sing, and survive in all different habitats.
- C. Birds use their legs to run, hop, or walk.
- D. Birds sing to find a mate or to let other birds know a place belongs to them.
